study of 'sarcodes is one of the most greyarea of homeopathic materia medica, which has not yet been throughly explored. Most of the sarcodes are not proved as per standard guidelines of Dr Hahnemann nor majority of them been clinically verified. On scrutiny of the available literature on sarcodes, a lot of differences and contradictions are witnessed which lead to confuson in the minds of the readers, particularly in respect to their sources, preparation, clinical applicability, effective potencies and doses etc., There is no clarity whether sarcodes should be earmarked as a separate class of 'animal kingdom'. Moreover the signs

and symptoms of each sarcode are not documented uniformly in different homoeopathic Materia Medicas, which naturally confounds the readers.

A Text-Book of Materia Medica and Therapeutics of Rare Homoeopathic Remedies

Sep 17 2021

Excerpt from A Text-Book of Materia Medica and Therapeutics of Rare Homoeopathic Remedies When I, four years ago, came to a determination to go through all our materia medica, and not, as formerly, exclusively deal with the more important medicines, it became immediately clear to me that our handbooks of materia medica (excepting the Encyclopedia of T. F. Allen) did not embrace the whole list of homoeopathic remedies. The

excellent handbook of Professor Allen contained the greatest number, while the text-books of Drs.

Cowperthwaite and Jessen (the latter also a good book for the wants of practitioners) have been found more serviceable in size for daily employment. I accordingly took the text-book of Cowperthwaite as my basis, and added to this a great number of notes, which the author intends to embody in the new edition. The remedies, that were not found by me in the text-book of Cowperthwaite, I in particular brought together to form a text-book of materia medica and therapeutics of the rare homoeopathic medicines. Kent's Comparative Repertory of the Homeopathic Materia Medica Feb 08 2021 Kent's repertory is one of the most acceptable repertories amongst the homoeopathic fraternity . Kent's comparative repertory is a helping hand for the physicians and students alike to overcome the problem of understanding the exact meaning of each rubric and to

differentiate amongst the closely related ones such as ;abandon and Forsaken' also the book is a guide for the selection of 'The correct remedy' as it details the differentiating features of each of the third grade remedy under the given rubric. This facilitates the physician at the clinical level. The book well elucidates the most important section of the Kent's repertory which is the Mind section.
