Adult Health Nursing - E-Book Jun 15 2021 Part of the popular LPN Threads series, this comprehensive text includes all of the vital medical-surgical and anatomy and physiology content you need to know. From an introduction to A&P to discussions of disorders by body system and beyond, Adult Health Nursing, 6th Edition, is an indispensable reference. Companion CD includes animations and audio clips depicting physiologic processes, physical assessment video clips, an English/Spanish glossary with definitions and audio pronunciations, an anatomy coloring book, and a fluid and electrolytes tutorial. Chapters begin with an overview of anatomy and physiology, providing a clear, basic understanding of A&P that LPN/LVNs need to know. The consistent, logical framework of the nursing process connects specific disorders to patient care. Safety Alert boxes help you implement The Joint Commission's safety guidelines in all settings, with considerations for special populations. Nursing Diagnosis boxes, screened and highlighted in the text, include nursing diagnoses for specific disorders paired with the appropriate nursing interventions. Skills in

a step-by-step format with full-color illustrations present clearly defined nursing actions with rationales for the skills and techniques you'll use in practice. Medication tables are meticulously detailed and provide quick access to action, dosage, precautions, and nursing considerations for commonly used drugs. Nursing Care Plans, presented in a case-study format, emphasize patient goals and outcomes and end with Critical Thinking Questions to develop your clinical decision-making skills. An emphasis on communication features real-life examples of nurse-patient dialogue and illustrates practical guidelines for effective communication. Patient Teaching boxes and Family Teaching boxes include post-hospital discharge guidelines and disease prevention instructions with a strong focus on three-way communication among the nurse, patient, and family members. Life Span Considerations for Older Adults boxes provide age-specific information for the care of the aging population, which is often the primary focus of the LPN/LVN nurse. Home Care Considerations boxes discuss the issues facing patients and caregivers in the home health care setting. Health Promotion boxes provide key information on staying healthy and preventing disease, with tips on wellness from Healthy People 2010. Cultural Considerations boxes discuss how to address the health needs of a culturally diverse patient population when planning care. Complementary and Alternative Therapy boxes includes disorder-specific therapies, precautions, and possible side effects of non-traditional treatments. Enhanced focus on the NCLEX® Examination offers end-of-chapter Get Ready for the NCLEX Examination! sections with key points for self-guided study and remediation and an extensive set of review questions for thorough self-assessment. Additional review questions on Evolve provide instant feedback with correct answer and rationale for even more test-taking practice. Evidence-Based Practice boxes summarize the latest research findings and highlight how they apply to LPN/LVN practice. Updated, vibrant full-color design highlights key information and enhances your understanding of important concepts.

Basic Geriatric Nursing Nov 28 2019 Part of the popular LPN Threads series, this concise text presents the theories and concepts of aging, the physiologic and psychosocial changes and problems associated with the process, and appropriate nursing interventions. With its easy-to-read, clear writing style, this text provides exactly the right depth and breadth of geriatrics content for LPN/LVNs. Clear, concise, consistent writing throughout. Nursing Process section (in appropriate chapters) provides a strong framework for the discussion of the nursing care of the elderly patient as related to specific disorders. Essential ethical and legal issues are presented as they relate to end-of-life care, restraints, and elder abuse. Clinical Situations provide individualized cases for students to study and learn from. Nursing Interventions are grouped according to health care setting to make it easier to determine the appropriateness of individual interventions for different patient populations. All-in-one Student Activities workbook is included in a perforated section at the back of the book and includes NCLEX-style multiple-choice questions as well as the new NCLEX-style questions (short-answer and fill-in-the-blank) to help students review chapter content and prepare for the NCLEX exam (answers are found in the Instructor's Resource Manual). New chapter on end-of-life care addresses essential content for both institutional and the home setting, including information on palliative and hospice care, pain management, and how belief systems affect the dying person and caregivers. Delegation, leadership, and management content is integrated throughout to address the changing role of LPN/LVNs. Delegation Considerations boxes address such topics as restraints, elder abuse, and end-of-life care as related to responsibilities of nursing assistants and other health care workers who are supervised by LPN/LVNs. Second color added to the design adds visual appeal and helps to emphasize key content. Cultural Considerations boxes help students understand how to provide culturally sensitive patient care. Complementary and Alternative Therapy boxes address popular therapies that are used in pain relief and other treatments. Patient Teaching boxes instruct and inform both elderly patients and their caregivers about health promotion, prevention, and age-specific interventions. Critical Thinking boxes pose questions designed to stimulate thought and help students develop and improve their ability to think critically.
