Saudi Arabia in the Balance Apr 10 2021 Saudi Arabia in the Balance brings together today's leading scholars in the field to investigate the domestic, regional, and international affairs of a Kingdom whose policies have so far eluded the outside world. With the passing of King Fahd and the installation of King Abdullah, a contemporary

understanding of Saudi Arabia is essential as the Kingdom enters a new era of leadership and particularly when many Saudis themselves are increasingly debating, and actively shaping, the future direction of domestic and foreign affairs. Each of the essays, framed in the aftermath of 9/11 and the 2003 invasion of Iraq, offers a systematic perspective into the country's political and economic realities as well as the tension between its regional and global roles. Important topics covered include U.S. and Saudi relations; Saudi oil policy; the Islamist threat to the monarchy regime; educational opportunities; the domestic rise of liberal opposition; economic reform; the role of the royal family; and the country's foreign relations in a changing international world. Contributors: Paul Aarts, Madawi Al-Rasheed, Rachel Bronson, Iris Glosemeyer, Steffen Hertog, Yossi Kostiner, Stéphane Lacroix, Giacomo Luciani, Monica Malik, Roel Meijer, Tim Niblock, Gerd Nonneman, Michaela Prokop, Abdulaziz Sager, Guido Steinberg

Improving K-12 STEM Education Outcomes through Technological Integration Dec 18 2021 The application of technology in classroom settings has equipped educators with innovative tools and techniques for effective teaching practice. Integrating digital technologies at the elementary and secondary levels helps to enrich the students' learning experience and maximize competency in the areas of science, technology, engineering, and mathematics. *Improving K-12 STEM Education Outcomes through Technological Integration* focuses on current research surrounding the effectiveness, performance, and benefits of incorporating various technological tools within science, technology, engineering, and mathematics classrooms. Focusing on evidence-based approaches and current educational innovations, this book is an essential reference source for teachers, teacher educators, and professionals interested in how emerging technologies are benefiting teaching and/or learning efficacy.

300 Thoughts for Theatremakers Sep 27 2022 "The future of theatre will belong to the maverick minds who possess the skills to mix things up and who have enough tools in their box to trick the game." This is a practical, grassroots, self-empowerment book for theatremakers. It's for anybody who wants to make live theatre, whether you're an actor, a director, a producer, a designer or a writer. Whether you're all of these, or none of them. Categories don't matter. What matters is making your show, and putting it in front of an audience. This book is not a method, nor a practice. It's an accessible toolbox of reflections and provocations designed to help you - an independent-minded, career-driven, professional theatremaker - along the path towards achieving your dreams. Inside, Russell Lucas shares his decades of experience in independent theatremaking, covering aspects including: Generating and developing ideas Working with other creatives Promoting your show and selling tickets Understanding the power of the audience Making ends meet and sustaining your career He tackles abstract problems, dissects the practical ones, and debunks plenty of myths along the way. Inspiring and unconventional, but always grounded in sound, real-world sense, *300 Thoughts for Theatremakers* is a book for anyone who's passionate about a life in theatre, and wants to make that a reality.
